

Arcade® FR

SAINT CLAIR TEXTILES

Roll Width: 118 inches, 59 inches • Weight: 15oz/yard

Arcade FR awning fabric is made of fire-resistant, PVC-coated polyester. With protection from the Lowick System, it still looks great after extended use. The fabric blocks out water penetration and defends against soiling, UV damage, mildew, and discoloration. The easy-upkeep awning fabric includes a Cleangard® finish. This smooth topcoat shields against weathering and helps with cleaning.

Uses include patio awnings, window awnings, small structures, pergolas, shade sails, tents, and outdoor canopy structures where a lightweight fabric is needed. Arcade FR is pliable but strong and works well for awning fabric replacement or new structures.

Arcade FR is easily welded and REACH compliant.

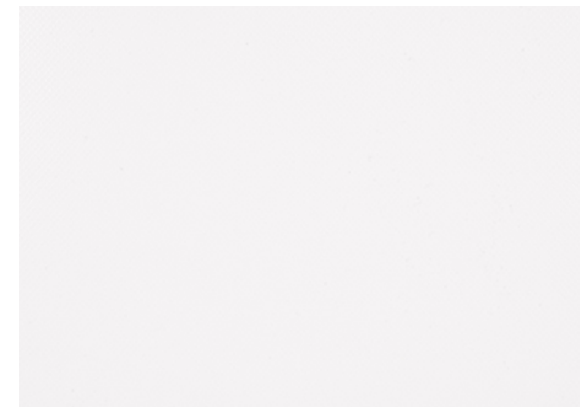

Warranty: 5 years.

FR Standards Met: NFPA 701-10, Method 2;

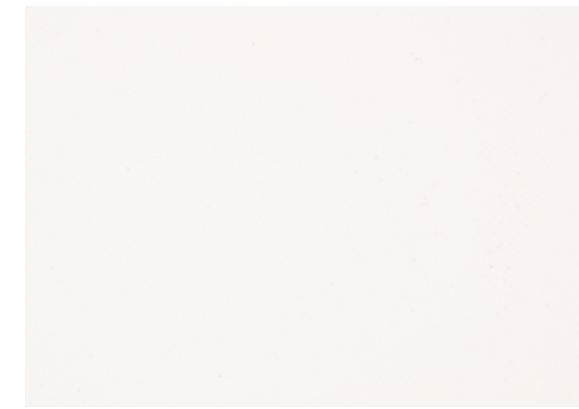

California Title 19; CAN/ULC-S109

Colors are representative only. Small variations in shade should be anticipated and are with commercial tolerances.

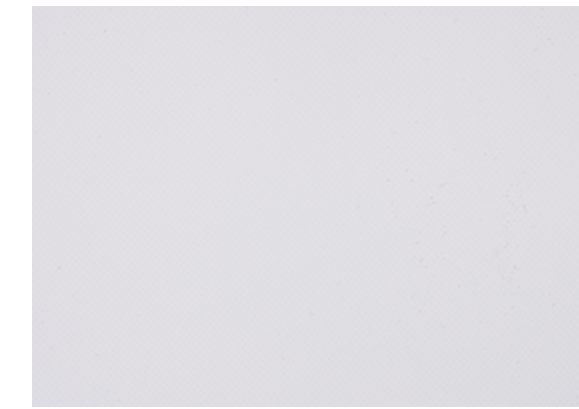

**Fabrics in 118-inch widths are only available in full rolls of 32.8 yards.*
